

## Seicane S128006 2009-2014 Toyota Sienna aftermarket car radio upgrade installation replacement instruction

Seicane S128006 2009-2014 Toyota Sienna head unit installation

### Precautions for this installation:

1. Before you start up any work, park your car well and unplug the negative power cable to avoid any danger.
2. Please make sure that all fastened wires are isolated with electrical tape.
3. Please make sure the ignition is off to avoid short circuit.
4. For your convenience, here's the recommended tools for removal and installation from Seicane, please check for more details: <http://www.seicane.com/car-dvd-dismantling-device-srd-400>

## 2009-2014 Toyota Sienna head unit installation guide

1. Use a lever to pry along the plastic panel and remove it.

2. Release the panel under the 50 shift and hang it on the panel.

3. Remove the a/c control unit with your hands.

4. Unplug the connectors at the back of the a/c control unit.

5. Remove the screws holding the factory radio in place with a screwdriver.

6. Take the factory radio out of the dashboard.

7. Disconnect the connectors at the back of factory radio.

8. Check all the accessories for the new Seicane car radio.

9. Connect the harnesses to the back of the new Seicane car radio.

10. Connect the Seicane car radio to your original car radio 's plugs.

11. Put the new Seicane car radio into your dashboard, you should check whether your connections are correct, the new unit is in right position, and you'd better have a tidy for the cables.

12. Check whether the new Seicane car radio is working without problem.

13. If there is no problem, firm removed screws that are put aside, then make trim panel back on your new Seicane car radio.

**Please note:**

We suggest you arrange a professional to install it. If you have any questions about installation, please send us photos about your original car's plugs, we can make a wiring diagram for your car.
