01/ Safety Precautions

Before installing this product

- [01] Use this unit with a 12-volt battery and negative grounding only. Failure to do so May result in a fire or malfunction.
- [02] To avoid shorts in the electrical system, be sure to disconnect the(-) battery cable Before installation.

Important Safety Information

Warning

- [01] Do not attempt to install or service this product by yourself. Installation or servicing of this product by persons without training and experience in electronic equipment and automotive accessories may be dangerous and could expose you to the risk of electric shock, injury or other hazards.
- [02] Do not allow this product to come into contact with liquids. Electrical shock could result. Besides, damage to the product, smoke and overheating could result from contact with liquids.
- [03] If liquid or foreign matter should get inside this product, please park your vehicle in a safe place, turn the ignition switch off (ACC OFF) immediately and consult your dealer. Do not use this product in this condition because doing so may result in a fire, electric shock or other failure.
- [04] If you notice smoke, a strange noise or odor from this product, or any other abnormal signs on the screen, please turn off the power immediately and consult your dealer. Using this product in this condition may result in permanent damage to the system.
- [05] Do not disassemble or modify this product, as there are high-voltage components inside which may cause an electric shock. Be sure to consult your dealer for internal inspection, adjustments or repairs.

Before using this product, be sure to read and fully understand the following safety information:

- [01] Do not operate this product, any applications, or the rearview camera option (if purchased), if doing so, it will divert your attention in any way from the safe operation of your vehicle. Please do always observe safe driving rules and follow all existing traffic regulations. If you experience difficulty in operating this product or reading the display, please park your vehicle in a safe location and apply the parking brake before making the necessary adjustments.
- [02] Never set the volume of this product so high that you cannot hear outside traffic and emergency vehicles.
- [03] To promote safety, certain functions are disabled unless the vehicle is stopped or the parking brake is applied.
- [04] Keep this manual handy as a reference for operating procedures and safety information.
- [05] Do not install this unit where it may (i) obstruct the driver's vision, (ii) impair the performance of any of the vehicle's operating systems or safety features, including air bags or hazard lamp buttons or (iii) impair the driver's ability to safely operate the vehicle.
- [06] Please remember to fasten your seat belt at all times while operating your vehicle. If you are ever in an accident, your injuries can be considerably more severe if your seat belt is not properly buckled.
- [07] Never use headphones while driving.

To Ensure Safe Driving

Warning

- [01] Light green lead at power connector is designed to detect parked status and must be connected to the power supply side of the parking brake switch. Improper connection or use of this lead may violate applicable law and may result in serious injury or damage.
- [02] Do not take any steps to tamper with or disable the parking brake interlock system which is in place for your protection. Tampering with or disabling the parking brake interlock system could result in serious injury or death.
- [03] To avoid the risk of damage and injury and the potential violation of applicable laws, this product is not for use with a video image that is visible to the driver.

[04] In some countries, the viewing of video image on a display inside a vehicle even by persons other than the driver may be illegal. Please pay attention to where such regulations are applied and obey them.

[05] If you attempt to watch video image while driving, the warning "Viewing of front seat video source while driving is strictly prohibited." will appear on the screen. To watch video image on this display, please stop the vehicle in a safe place and apply the parking brake. Besides, please keep the brake pedal pushed down before releasing the parking brake.

To Avoid Battery Exhaustion

Be sure to run the vehicle engine while using this product. Using this product without running the engine can drain the battery.

Warning

Do not install this product in a vehicle that does not have an ACC wire or circuitry available.

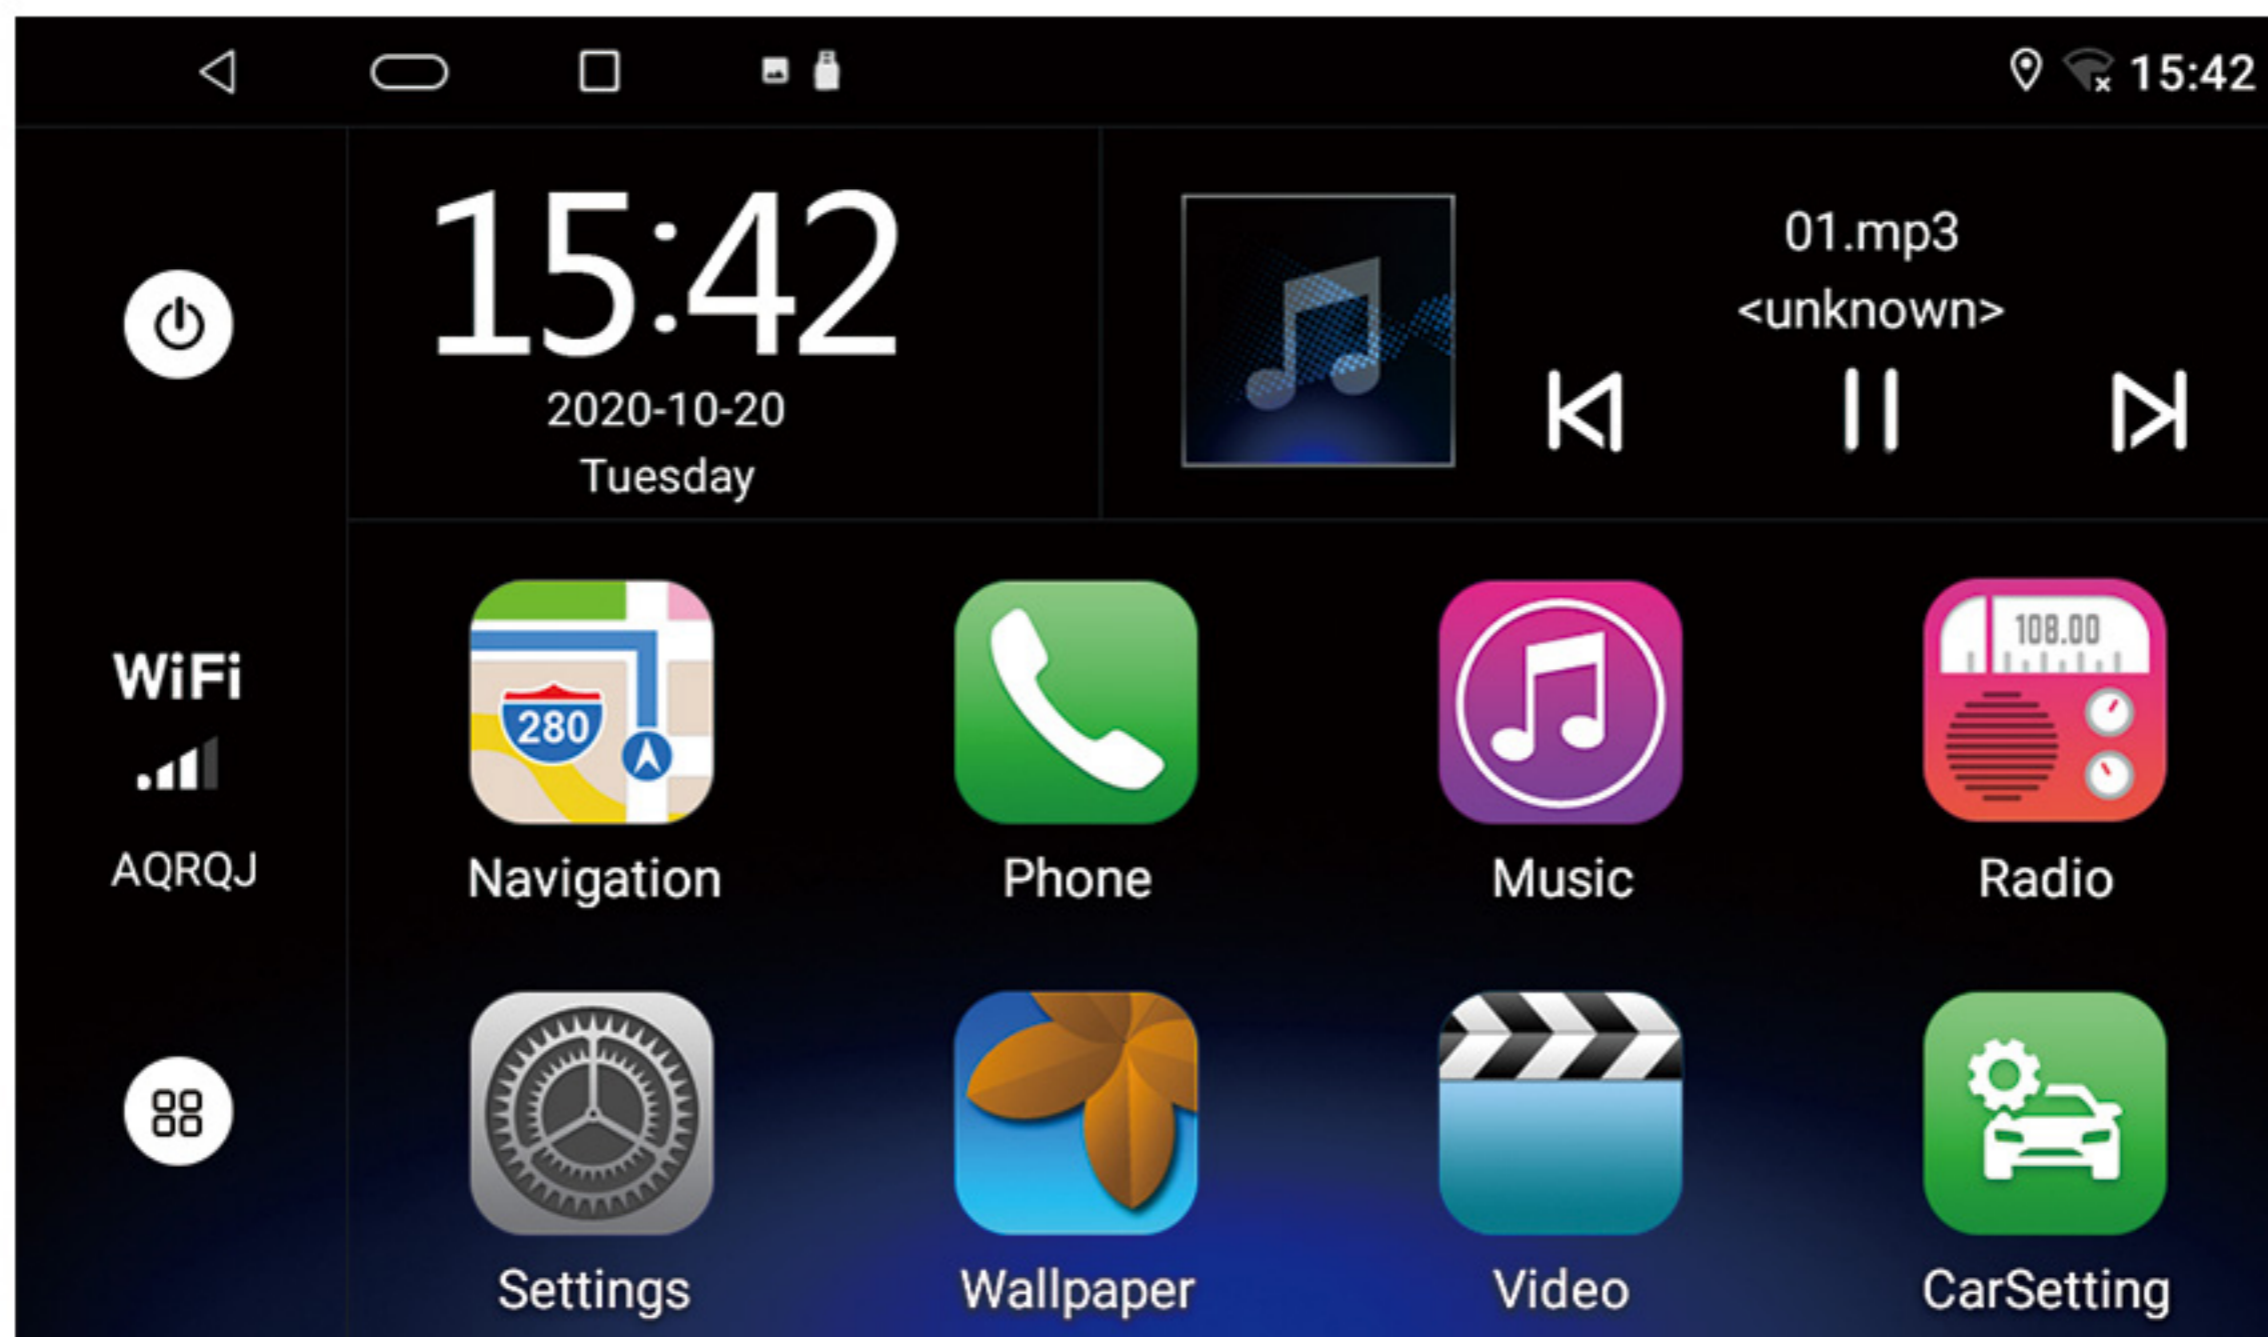

02/

14/ Unit Socket Sketch Map

Here shows the concise unit socket sketch map of the unit.

15/

Internet Connection

You can connect this unit to the Internet whenever necessary, using a Wi-Fi connection (if available) or 3G network (3G dongle is sold separately). You can browse the web, download apps via Google Play, play online games, etc. The possibilities are endless with the Internet in your car.

16/

Google Play Store

Google Play brings together all your favorite movies, TV programs, books, music, magazines, apps and more in one place.

If you purchased content on Google Play in the past, you will automatically have access to this content on any Android device. Just make sure that you have signed in using the same account that you used to purchase it.

17/

AUX Function Operation (Optional)

Make the video input jack plug to the input video input , audio input plug to the input audio input jack.

CAUTION

For Safety reasons, video images cannot be view while your vehicle is in motion. To view video images, please stop in a safe place and apply the parking brake.

18/ OBD2 (Optional)

This unit can support OBD2(On-Board Diagnostics) car diagnostics. With OBD2 function available on this unit, you can retrieve real-time data and trouble codes from your vehicle computer. All the data of your vehicle is displayed to you. (OBD2 WiFi car diagnostic scanner tool is sold separately.)

The OBD II scanner tool should be correctly plugged into the OBD II interface of the car.

19/ DVR (Optional)

You can control a car DVR camera (sold separately) on this unit and use it to record all the events of a journey. It is used for recording the whole process of traffic accidents, taking photos for front of vehicles and storing the video in real-time while driving.

Plug the USB cable of the DVR into the USB port of the car radio.

Click  into DVR after DVR installation.

20/

DAB+ (Optional)

With the use of a DAB dongle(sold separately), DAB+(Digital audio broadcasting) tuner lets you enjoy the convenience of digital radio, while Auto DAB+ Tuning makes sure there are less signal interruptions. DAB+ digital radio brings you high detail, digital-quality sound, lots of stations, program information and more. DAB antenna(sold separately) needs to be positioned on the windscreen of your vehicle. Tap DAB+ on the apps menu screen, then tap to  search all available services automatically.

Plug the USB cable of the DAB+ dongle into the USB port of the car radio.

Click  into DAB+.

21/

Rearview Camera (Optional)

With a rearview camera added this product, it can automatically switch to the parking image while reversing, which can effectively ensure your parking safety. (rear view camera is sold separately.)

To add a rearview camera to your car, you should:

- a. Remove the car radio's plug cable.
- b. Make sure the car radio's power cord is connected.
- c. Insert the AV input cable into the reversing jack of the car radio.
- d. Connect the AV input cable to the rear of your car.
- e. Take 12V power from the car reverse taillight to supply for the car rearview camera.
- f. Ensure the insulation of the cable.
- g. Hide cables along the car door.
- h. Make the car rearview camera cable connects to the video extension cord.
- i. Hang up the reverse gear, you will see the signal automatically switches, and then the installation is completed.

Here shows you the wiring of wireless rear view camera.

If you still can't get reversing camera image at reverse gear after installing your wireless camera according to the above way, please find and connect the brown "CCD AV IN" cable (or REVERSE cable in the supplied power harness) to + positive of your reverse lamp.

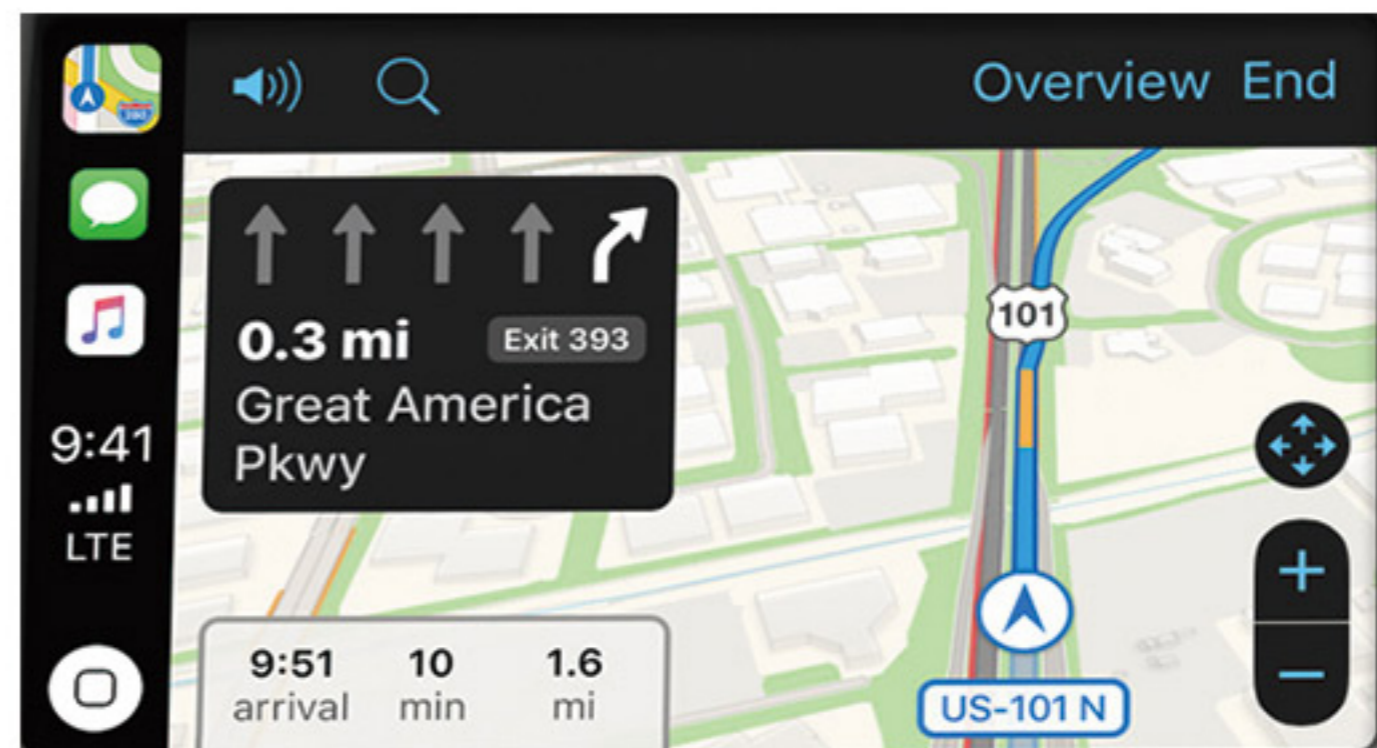

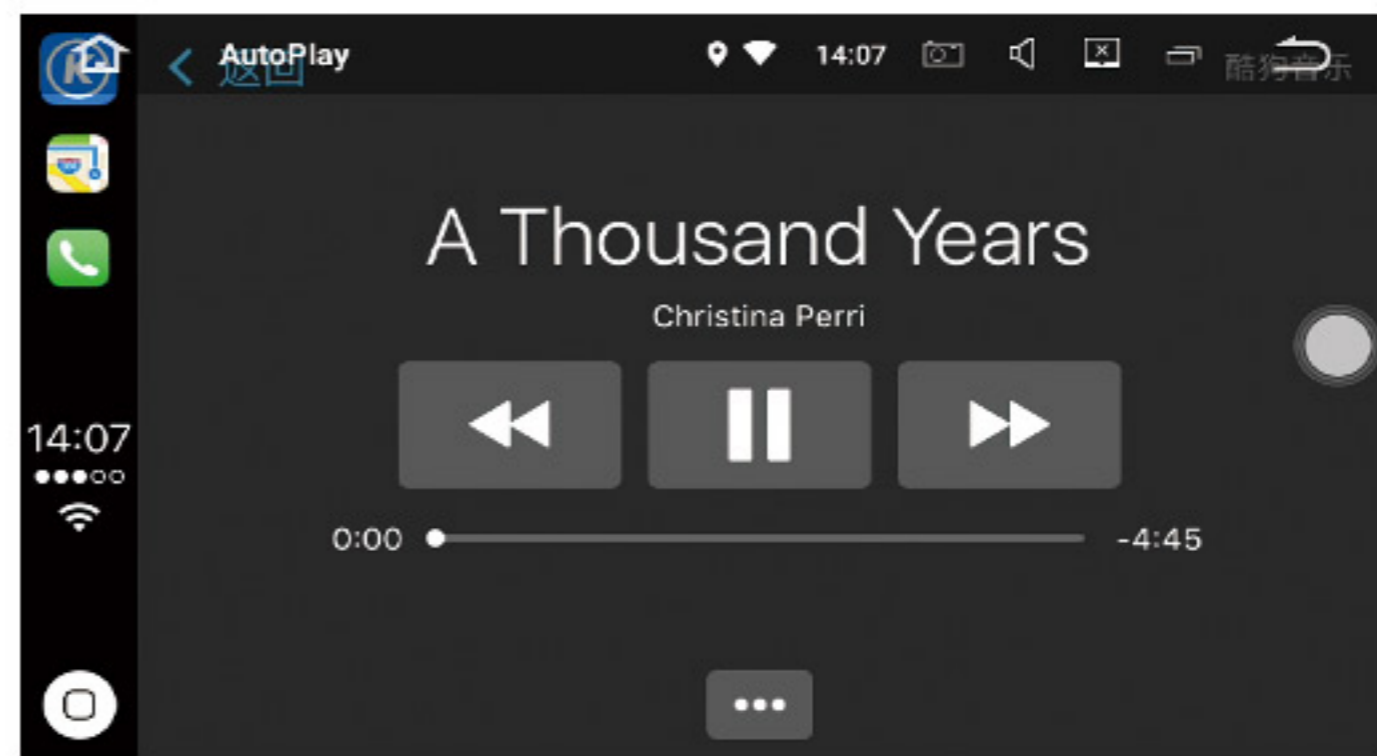

22/

Carplay USB Dongle (Optional)

This unit can support Carplay USB dongle. The Carplay USB dongle (which is sold separately) can support original car voice control and car screen touch. With a Carplay USB dongle connected to this product, you can freely enjoy your phone Carplay function in your car.

You can click  into Carplay after connecting. You can play music and make the phone call through your mobile phone, and use the map in your mobile phone, etc.

23/ TPMS (Optional)

This unit can support TPMS (Tire Pressure Monitoring System). An ideal tire pressure monitoring system (TPMS) can monitor tire gradual air leakage, quick air leakage, low or high tire temperature, low or high tire pressure, real-time alarm once the tire is abnormal. It can also prevent puncture effectively as well. With regular tire check-ups provided by this TPMS, you can greatly save time, effort and money to efficiently discover and solve many current automotive safety problems. (TPMS is sold separately)

To apply the TPMS in your car, you should know:

- Install the TPMS app (pre-installed) on your navigation.
- Connect the receiver to the USB port of the car radio.
- Install the sensors to the tires one by one.
- Fix the receiver.

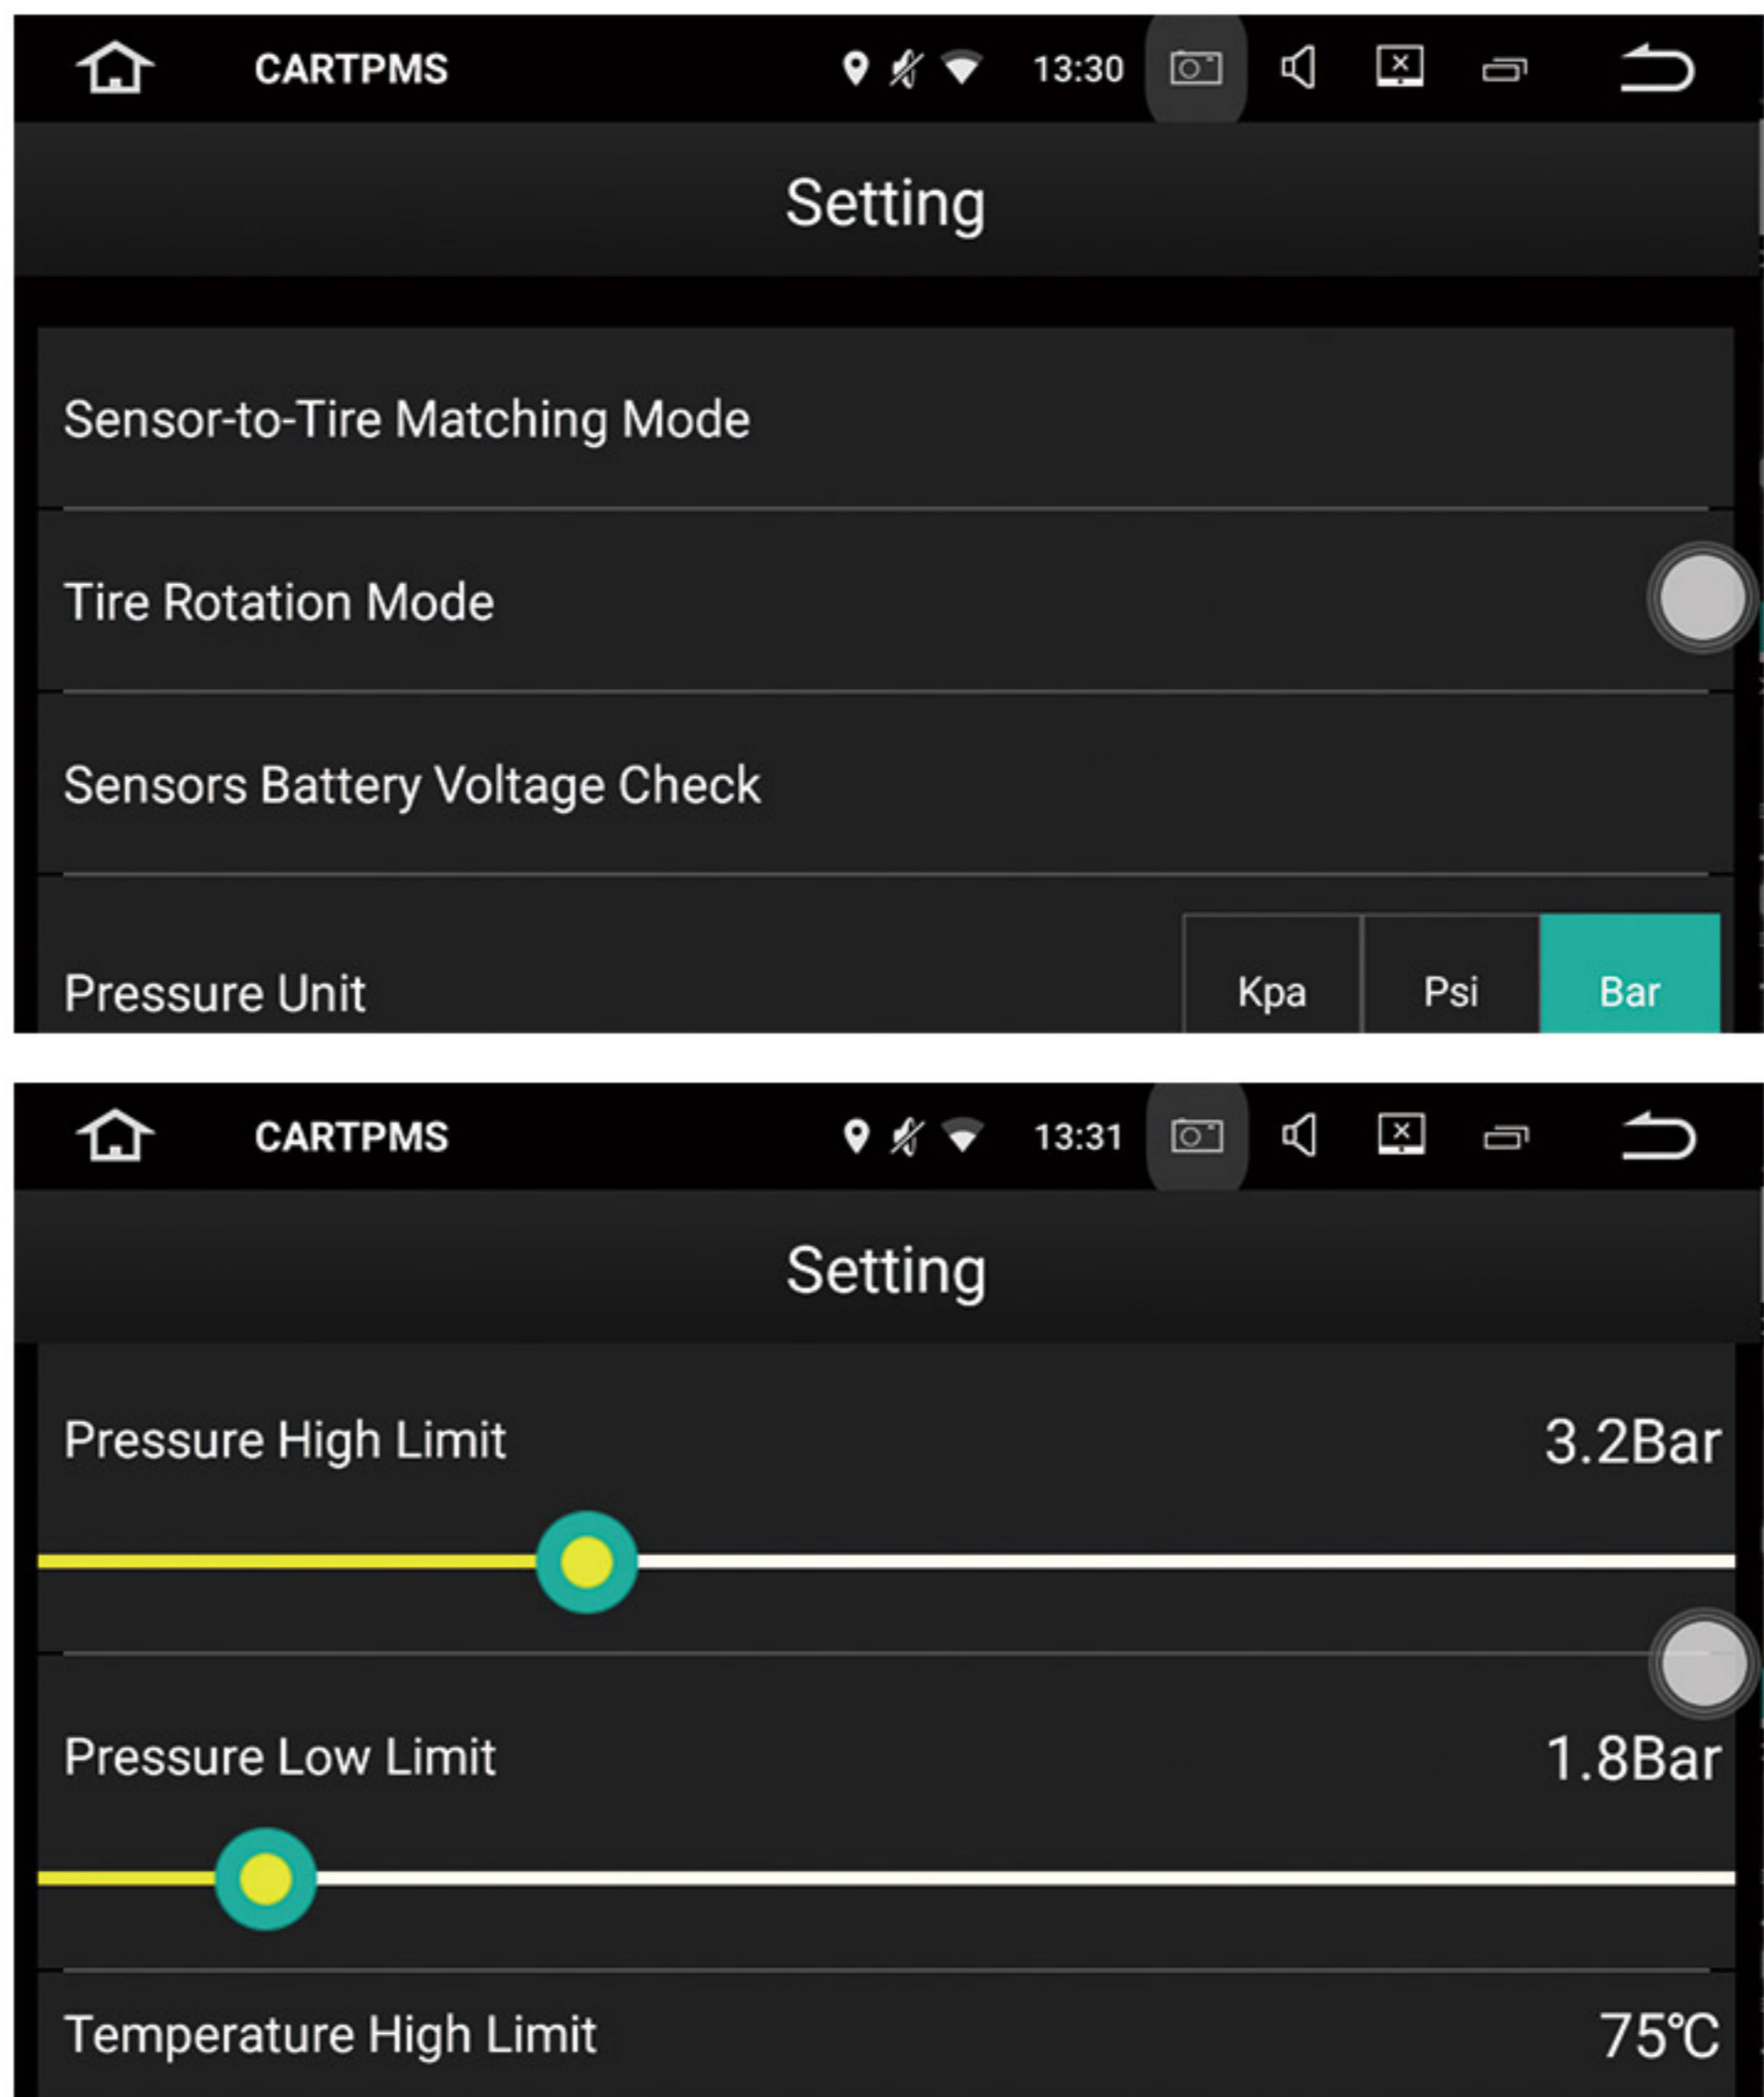

- e. The app can alarm automatically when the tire has any abnormal situation, so you don't need to always pay attention to the APP which shows in real time.
- f. You can adjust the pressure/ temperature alarm limit valve through the menu of the TPMS app.
- g. If you don't need the alarm sound, you can close it according to your requirement.

Click  into TPMS interface.

Click  into more setting.

24/ Digital TV (Optional)

This unit can support Digital TV receiver on three standards including ATSC, DVB-T and ISDB. With an amazing Digital TV signal receiver added to this product, you can have a wide range of choices for wonderful TV shows to enrich your driving experience. (Digital TV receiver is sold separately.)

Here we take ATSC digital TV as an example.

You can click  into TV after the installation of ATSC, DVB-T and ISDB. Here is an Screen-shooting after ATSC installation .

25/

External 3G Module (Optional)

With an external 3G module (which is sold separately), you can insert an SIM card to it, connect it to this product and then successfully connect to 3G Internet.

About the installation, you should know:

- a. SIM card should be able to support WCDMA net.
- b. Please connect the 3G dongle to the car radio's USB port, you will get 3G net symbol and then surf on the internet after you open the network connection.

26/

Picture In Picture

Support video picture in picture function , video top , video window zoom at will , as you wish.

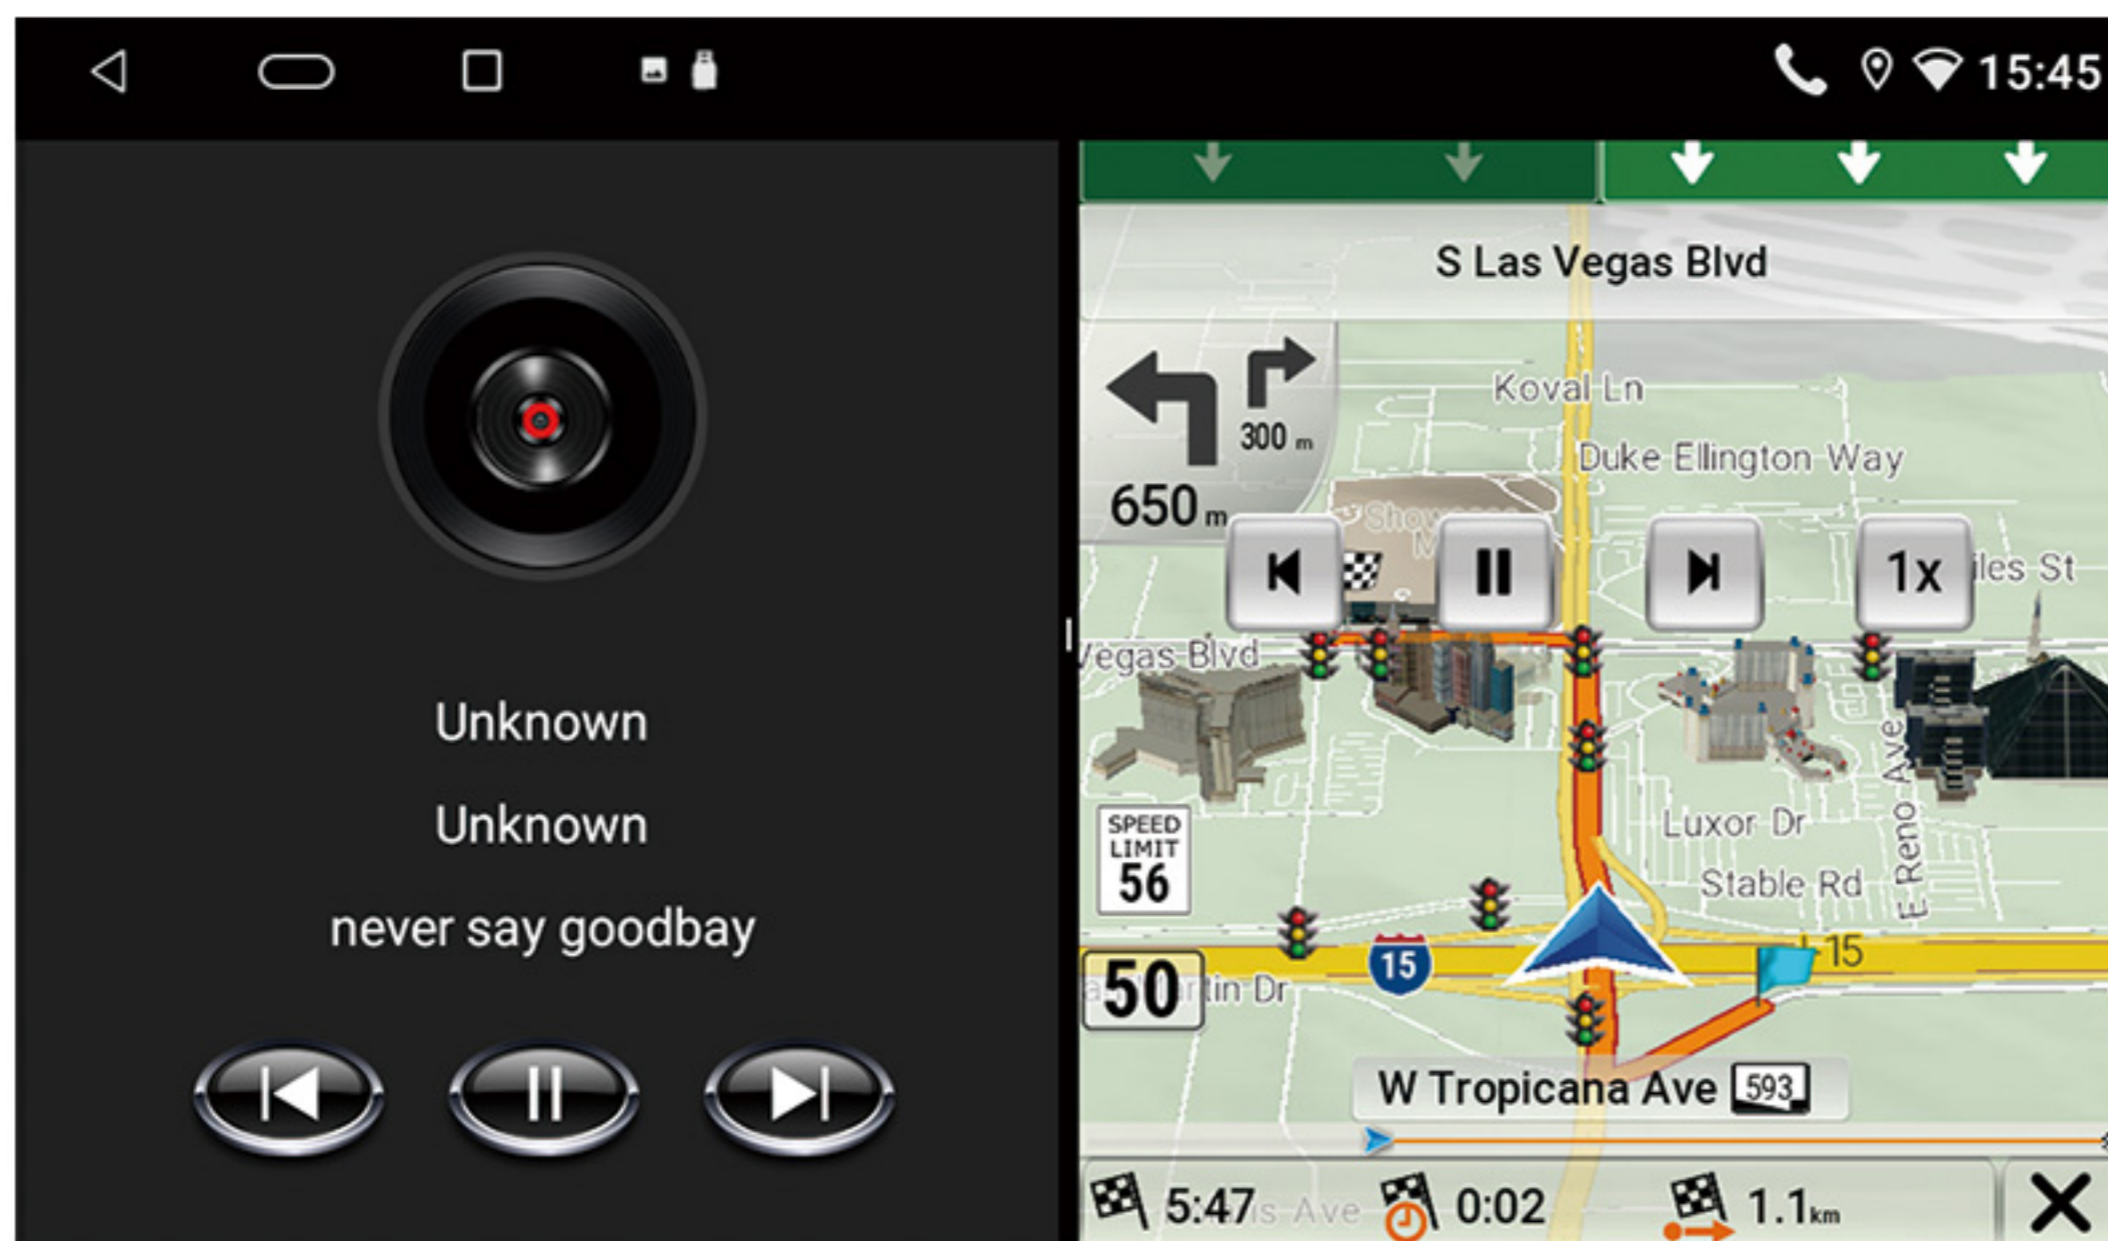

27/

Split Screen Display

It supports the same screen display of two kinds of applications , navigation and entertain-ment at the same time

Note: some applications do not support split screen.

28/

Troubleshooting

Item	Problem	Solution
1	Can not start	<ul style="list-style-type: none"> ① Check the power wire. ② Check the power fused is off or burned. ③ Press on Reset to check whether there is lost or not.
